MacLive: User Roles within Elluminate

Moderator: Typically an instructor, TA, meeting Chair or host. They have ID's on the MacLive system and can schedule meetings and classes, invite others to attend and have extra privileges within the session.

Participant: Typically a student or meeting attendee. To access the session they need only the URL for the meeting and room password if one has been assigned.

This chart outlines the main functionality differences between the roles but is not conclusive.

Function/Tool/Privilege	Participant	Moderator
File Transfer Tool	☑ (preloaded files only)	☑
Initiate Desktop Sharing	☑	☑
Polling	☑	☑ +Lock Responses +Hide Responses +Publish responses to Whiteboard
Audio	☑	☑ +Can Remove Mic/Mute
